THE TREATMENT **CURING OTHERS WILL CURE YOU**

A Free Trial.

No High Fees.

The doctors of this institution extend to all, as they always have, a cordial and kindly invitation to visit their offices, and on their first visit to receive a trial treatment absolutely without cost, without pay, or without expectation to pay. All those people who have slight or trifling ailments. purely catarrhal conditions, easily capable of a speedy cure under the new methods, will be charged only a trifling fee, while those who have difficult, obstinate or serious diseases, requiring a special and longcontinued care and attention, will be charged a fee commensurate with the care and attention they require. Under no circumstances will the fee be exorbitant.

Described by Symptoms.

Hosts of people suffer from the various malignant poisons in their blood, which produce or result from eatarrh. Many other persons suffer from nervous diseases, liver diseases, kidney diseases and skin diseases, as the result of irritating crystal poisons in the blood. A majority of such sufierers do not have a definite understanding of the nature of their affliction. The following symptoms have been arranged by us to enable sufferers to understand just what it is that ails them. Although written and copyrighted by us, they have been extensively copied by other concerns without our authority. The proper course of those affected is this: Read these symptoms carefully over; mark those that apply to your case, and bring this with you to Doctors of this institution.

National Golf Meeting.

Robert B. Kerr, secretary of the United States Golf Association, has just concluded arrangements for the annual meeting of the association. The date decided upon is February 28, and the meeting will be called February 28, and the meeting will be called to order at 9 p.m. at Delmonico's. Previous to the meeting the executive committee will hold a short session to consider applications for membership from the various clubs not now in the league. Mr. Kerr has already issued a circular letter to the clubs inviting them to hold the championships next season, and the time thus given will permit ample discussion before the meeting takes place. It is expected that replies to this letter will be received at the secretary's office during the present month, and Mr. Kerr will then compile these in the form of a statement showing just what clubs are willing to undertake the events, and this statement will be mailed to each associate and aillied club in the association by January 28. Thirty days will thus be given the delegates in which to consider the claims of applicants, and as a result they will' be enabled to act with intelligence when the meeting finally takes place. Each club in the association will be permitted to send two delegates, but only the associate representatives will be allowed to vote. The allted clubs will be permitted to take part in the discussion and offer suggestions, but their delegates will have no voice in the final vote. From the way things look now the meeting promises to be the largest that has been held since the league was organized, and the competition for the various tournaments is likely to be a keen one. Anti-Quigg feeling is said to have broken out in the Republican Club, and that it will occasion an interesting contest in the annual election on January 15. According to the rules of the club, nominations in opposition to candidates on the regular ticket may be made if indorsed by twenty-five members two weeks before the election. The regular ticket was submitted at the last monthly meeting. No contest has been heard of until last week, when another ticket was posted on the club's bulletin board. Comparison of the two tickets shows that the only difference is that the name of J. F. Hitchcock has been substituted for that of John Sabine Smith for member of the executive committee for the next five years. There will be no opposition to President Depew's re-election, nor to any other candidate on the regular ticket, except Smith. Mr. Smith for several years has posed as the Quigg leader in the twenty-seventh assembly district. Two years in succession he has been overwhelmed at the republican primaries in his district.

What Hart wished to assert was that he had examined twenty-four condemnations of pieces of wished to assert was that he had examined twenty-four condemnations of pieces of property near Glenelda Lake, from which New York city draws a portion of her winter supply. He has estimated that the awards had exceeded 66 per cent of the actual value; that these awards by this commission alone have cost the city \$428,-000 more than was just, and that in the work of the thirty condemnation commissioners appointed in 1893, of whom eighteen are still employed, it seems to the mathe-

The young man has been carefully coached in the lore of investment securities by his brother George and Judge Dillon. "Uncle" Russell Sage also has expressed fore than ordinary interest in the studieus young man's business education. But Frank Jay Gould has concluded that New York real estate is a more satisfactory investment at present than Wall street. In the past the Gould family has invested little of its wealth in local real estate.

Coming Athletic Feats.

New York athletes always patronize lib erally the annual meet of the Boston Athetic Association, and this year the games will be held at Mechanics' Hall on the even ing of February 3. The team race will this year be one of the main attractions. Harvard will run against the University of Pennsylvania, while the other teams will be paired as follows: Co'umbia vs. Cornell, Dartmouth vs. Brown, Amherst vs. Williams, Knickerbocker A. C. vs. Boston A. A., Technology vs. Bowdoin College. What is likely to prove an excellent change has been made with regard to the entries. In former years some of the crack runners after competing for their own college or club went in and ran for some other team, but this year no man will be allowed to represent two separate organizations.

Breeding of Canary Birds.

The breeding of canary birds and teaching them to sing have long been favorite pursuits in various European countries. Although to many persons all canaries look alike and their only distinguishing difference is that some sing and some do not, there is, nevertheless, a great variety. There are canaries as well as dogs that have pedigrees, and they are bred quite as carefully. Three years ago a society of bird breeders was organized in this city, and since then some of the prize-winning birds have been imported from England, Belgium and Scotland; also some of the machines and instruments used in teaching the birds to sing. And the breeders are now producing some fine birds. This society will hold its third annual exhibition in Majestic Hall on January 10, 11 and 12, where it is promised that a very interesting collection of birds will be shown. ence is that some sing and some do not

At the meeting of the Christian Endeavor Union, held last evening at the Calvary Baptist Church, Mrs. J. W. Mrs. Carlin has spent a number of years in mission work, assisting her husband, who is a Baptist minister, at Ung Kung, China. She gave a graphic account of the home life and surroundings of the Chinese women, among whom she worked.

The unique feature of the experience of the Carlin family in China, it is stated, is that all the children have been of great assistance, and in a manuer have taken an active part in the work. Through them Mrs. Carlin has had freer access to the homes of the people and has won their confidence and friendship. Even the American toys belonging to the children were the means of attracting numerous visitors, who, it was declared, afterward became friends of the family and finally Christians. A tricycle sent the oldest boy from San Francisco created the greatest interest in the Chinese city, where nothing of the kind had been seen, and crowds of men came daily to see him ride it about the court of the mission buildings, and afterward stayed and talked with the missionary and became interested in his teachings. Mrs. Carlin reported that there wære about five hundred professed conversions as a result of the work of herself and family in the city of Ung Kung alone.

The children alded their mother last evening by singing and recifing in Chinese. They were all dressed in the native costume.

During the evening considerable business was traosacted by the union, including the election of Mr. F. F. Reisner as permanent recording seeretary, to succeed Mr. J. N. Pickens, whose recent removal to Philadelphia to accept a business position there made his resignation necessary. Among those who participated in the exercises were Mr. Walker E. McBath, president of the Assembly's Presbyterian Society, who led the devotional exercises; Miss Fletcher of the E Street Baptist Church, who had charge of the missionary program, and Rev. C. H. Butler, who conducted the closing qulet hour service.

The Misses Callahan and Bates sang "Rock of Ages," and Miss Garthewaite sang, as a contralto solo, "The Golden Pathway."

Park Adornments. To the Editor of The Evening Star:

The arguments advanced by some of th East Washington citizens in behalf of the Pennsylvania railroad bill at a recent meeting of their association were read with much interest by many citizens of the southeast section of the city, especially by those owning property and living nea Garfield Park. We would be very much pleased if Messrs. Blair and Frizzell would inform us in what way our property would be improved by having a railroad pass in front of our homes—and four railro tracks passing diagonally through a publ

said park.

If this bill is passed I hope our senators and representatives will make a special note of this unique park decoration, and send it to the city papers throughout the United States, that less favored cities may follow the example of progressive Washington. It is well to remember that our parks, though much admired, seem very small compared with the parks of other cities, and are often called squares by people visiting Washington, and beautiful Garfield Square, with a tunnel running through half of it, and four railroad tracks running diagonally through the other half, will be as onally through the other half, will be a much of a curiosity as the Capitol or Con gressional Library.

Annual Meeting of Business Men's League Last Evening.

OFFICERS ELECTED FOR ENSUING YEAR

Cases Tried This Morning in Mayor Simpson's Court.

GENERAL AND PERSONAL

Evening Star Bureau, No. 701 King St., Bell Telephone No. 106, ALEXANDRIA, Va., January 9, 1900. The annual meeting of the Business Men's League was held last evening in the rooms of the association, northeast corner King and Washington streets. Many matters of interest to Alexandria from a business point of view were brought up and thoroughly discussed, and the election of officers for the ensuing year was held. The balloting resulted in the choice of the following: M. B. Harlow, president; Julian T. Burke, first vice president; J. Clinton Smoot, second vice president; William F. Carne, secretary, and John W. May, treasurer. The following were chosen directors: Messrs. Henry

F. Robertson, Park Agnew, Gardner L. Booth, Clarence C. Leadbeater, William M. Reardon and Judge J. K. M. Norton. After the secretary had read several letters and papers pertaining to business in-terests in the city, Mr. Isaac Eichberg spoke in favor of having Alexandria included in the bill to be offered in the state legislature providing for the use of under ground trolley wires for electric railways operating in cities of 20,000 inhabitants and more. Mr. Leadbeater indorsed Mr. Eichberg's plan, but Judge Norton thought it would be bad policy, as there was now only one railroad in the city, and the desideratum was to induce other companies to locate here. The discussion waxed warm and Mr. Eichberg wanted to know of what benefit the Washington, Alexandria and Mt. Vernon railroad had been to this city.

Owing to the small number present it was decided to defer definite action on the matter until next Monday, when a special meeting of the league will be held. operating in cities of 20,000 inhabitants and

Mt. Vernon Avenue.

Mr. Eichberg spoke briefly on the proposed Mount Vernon avenue, and thought it advisable to urge the state to appropriate about \$40,000 in the interest of the highway. The prospects for the construction of Memorial bridge were also discussed in connection with Mount Vernon

wenue.

Mr. Harlow discussed the Parks bill, which provides for taxation on mortgages. He thought it unjust and suggested that influence be brought to bear in legislative quarters looking to the repeal of the bill. Accordingly the secretary was directed to confer with the state senator and delegate representing Alexandria and ask them to use their influence for repealing the measure. The meeting adjourned at a late hour.

Union Veteran Buried.

Funeral services over the remains of J. C. Calhoun, the Union veteran who died yesterday morning, took place today from his late residence in Del Ray, Rev. F. M. Day of the M. E. Church officiating. Membars of the M. E. Church omclating. Members of Thomas P. Davis Post, No. 46, G. A. R., in which the deceased held membership, attended in a body. The pallbearers selected from the post were William T. Emerson, William Graves, John M. Young, Charles Irving, Thomas Dalton and Edward Kevan. Interment was made in the national cemetery.

Police Court Docket.

Mayor Simpson disposed of the following eases in the police court this morning: Walter Posey, charged with being drunk and shooting a pistol in the street, for-feited \$10 collateral; James Coleman and Jeseph Green, charged with shooting crap, Joseph Green, charged with shooting crap, were dismissed; William Jones, charged with drunk and disorderly conduct, forfeited \$5 collateral; John Jones, for burglary, was sent to jail to await trial; Eva Baker was fined \$20 for selling liquor to minors; John, alias "Piggie" Williams, under indictment for burglarizing the residence of Mr. H. C. Ansley last summer, was turned over to the city sergeant. Williams was captured yesterday by Lieut. Smith and Officers Atkinson and Arrington, after he had eluded the police for several months.

General Matters. The annual installation of officers of Alexandria Council No. 627 Re al Arcanum will take place at 6:30 o'clock this evening in Odd Fellows' Hall. Following the ceremonies at 8 o'clock a complimentary entertainment will be given at the opera house. The following indictments have been reported by the grand jury in the corpora-

tion court: John Thomas Elsey, colored, charged with the murder of William Pinkney; John Bogan, colored, charged with burglary, and Alexander Baden Rowe, col-ored, larceny of a horse and buggy.

The Railroad Mission and Reading Rooms

The Railroad Mission and Reading Rooms have elected the following officers: W. L. Griffin, president; James Foster, vice president; Walter Kerrick, recording secretary; Miss Ada Grigg, financial secretary; George Windsor, treasurer; Miss Ada Grigg, organist; Wm. Owen, musical director.

The consular agent had few facts Goide. The consular agent had tew facts to contribute in addition to those already set out in the press dispatches. His report makes it appear that the killing was the result of a private quarrel or affray, and it does not appear that the government of Honduras was implicated, although the more degree was the clerk of a court. In this murderer was the clerk of a court. In this state of affairs it is probable that all that can be done by the State Department will be to see that justice is meted out to the murderer, who is now held under arrest at

PROPERTY OWNERS PROTEST. Objections to Railway's Right of Way

Through a Park. A petition was presented today to the District Commissioners, in which protest is entered against the provisions of the measure recently presented to Congress, known as the Pennsylvania railroad bill. The petition, signed by all those who own property adjoining and in the vicinity of Garfield Park, is as follows:

"The undersigned, being owners of property adjoining and in the vicinity of Garfield Park, wish to protest against the bill now before you for consideration, in so far as it allows the railway the right of way ugh said park.

through said park.

"We believe it is the sentiment of the best people of our section and of our city that the park system of Washington should be extended rather than curtailed. The southeast section of the city has been given few improvements, and it is now proposed to ruin the only park of any size in this section. The Capitol and library are but three and four blocks from the different sections of this park. More public buildings will soon be a necessity in this region, and the annoyance from smoke, cinders and gas spon be a necessity in this region, and the annoyance from smoke, cinders and gas will be a great and increasing one. "Providence Hospital, a large and benefi-cent institution, would suffer greatly from the increased proximity of the railroad, the poles are

coise, etc.
"The great annoyance to which the teach ers and pupils of the new school about to be built, fronting Garfield Park would be put, making the hearing of recitations almost impossible, and the increasing popularity of this park for children should have great

weight.

"This park should ultimately be a connecting link between the mall and the park to be improved upon the reclamation of the Anacostia flats.

"We believe there is no shadow of excuse for the demand of the railway company that they be allowed to use this park. In other cities the engineering difficulties

ity, and should be held sacred for that purpose. This park in particular, being named in honor of a martyred president, should be kept inviolate to his memory.

"The railroad yards in this section have long been a great annoyance, both to our citizens and visitors to our city who board on New Jersey avenue south, and contiguous streets, and if, as is now proposed, the railroad be given the only park in the section for their use, with all the resulting annoyance to all citizens, it will be an action much to be deplored, and we call upon you to use your best influence against this proposition."

Woman's Single Tax Club. An open meeting of the Woman's Single

Tax Club was held in the single tax headquarters last evening. In the absence of the president, Miss Henrietta Morrison, Miss Bessie Dwyer, vice president, presided, and a musical and literary program was rendered by members of the club. Among those present were Dr. Alex. Kent and entative E. R. Ridgely. The latter

Representative E. R. Ridgely. The latter gave a reminiscent talk about Henry George and the late Dr. McGlynn.

Miss Dwyer explained that the object of the Woman's Single Tax Club was to awaken an intelligent interest in the movement and to eventually effect a national organization, combining the efforts of all women's tax clubs so as to do more effective work. tive work.
